DETAILED ACTION

Comment on Submission

1. The amendment filed 29 December 2003 has been entered.

Election/Restrictions

2. Newly submitted claims 6-11 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Regarding amended claims 6-11, the claims are directed to a combination invention (new Group III) including limitations directed to both a discrete photon counting system (original non-elected Group I) and a linear detector array comprising rows of staggered detectors (original elected Group II).

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 6-11 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

3. Claims 12-14 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: Regarding independent claims 12 and 13, the claims are allowed for reasons of record as indicated in the remarks filed 29 December 2003.

Response to Arguments

5. Applicant's arguments with respect to claims 6-11 are moot in view of the withdrawal of the claims as being drawn to a non-elected invention.

Art Unit: 2878

Conclusion

6. This application is in condition for allowance except for the following formal matters:

The presence of claims 6-11, non-elected by original presentation.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
